Partnership

We have partners to help us provide this free resource to churches, ministries, worship leaders, musicians, sound engineers, recording engineers, photographers, videographers, and DJ's!

We also genuinely believe that God cares about the success of your organization! We want to provide an opportunity that will bring marketing benefits to you. We believe that, as you invest in the things that are on God's heart, He will bless your organization with favor above and beyond the marketing value you receive!
